ProForce Law Enforcement is Appointed Exclusive Rights for Taser Sales in Alaska

PRESCOTT, ARIZONA – ProForce Law Enforcement is pleased to announce that it has entered into an exclusive distribution agreement with TASER® International, Inc. (Nasdaq: TASR) for law enforcement sales in the state of Alaska.

TASER is the market leader in less-lethal devices for law enforcement use. In the past 10 years, the studies and reviews of actual field uses by local law enforcement agencies as well as reviews by governmental agencies have revealed compelling statistics indicating significant drops in injuries to officers and suspects at agencies that deploy TASER. As a result, more and more law enforcement professionals, departments and agencies are employing them as required duty sidearm.

“We are very pleased to be able to offer this outstanding line of less-lethal products to the law enforcement community of Alaska. This is a nice addition to the states we currently serve which are California, Arizona, Washington, Idaho, Montana, Nevada, New Mexico, Utah, Colorado and Wyoming,” stated Tim Mulder, President of ProForce. “The TASER product line is a very important and integral part of the law enforcement equipment we offer, he added. “ProForce supplies the entire TASER product line including X26, M26, accessory items such as TASER cam, holsters, X-Rail mounting system, battery systems, cartridges and more. ”
